Dear Sirs,

I wish to say thank you for the installation of the stair lift in my home yesterday. You engineer arrived on time, on the day promised, and carried out the work in an efficient manner. He left the site clean, went through the operation systems clearly, and left us with a fully operational unit.

To be freed from the trial of climbing our very steep stairs is a massive relief and we would like you to know how pleased we are that this has been done for us.

Yours sincerely

Graham Wellstead PhD
